CHICAGO, December 5, 1871.

To the Officers of the Germania, Hanover, Niagara and Republic Fire Ins. Co's of New York:

GENTLEMEN—The course pursued by your Companies in the adjustment and payment of our own claims, and so far as we know, ALL claims for losses in the great fire in Chicago, has been so highly honorable, prompt and straightforward, and marked by such apparent desire to deal justly towards all parties, under all circumstances, that we desire voluntarily to acknowledge it to the business public. We conceive that no stronger test could be made, both of the responsibility and of the integrity of an Insurance organization, than yours has passed through here successfully and creditably. With an unimpaired Capital and unblemished reputation for equitable settlements, and a record for equitable settlement, certainly surpassed by none, we congratulate you on the career of future prosperity, to which your actions here have so justly entitled you, and remain,

Yours very respectfully,

HANDS.

Neatness is the first consideration which makes a hand attractive. No matter how long, bony, or large jointed or unshapely, if it is clean and the finger nails properly cared for, a hand can never look disgusting.

A soft, warm, pliable hand has great power in fascination. There is character in a large hand, many times far greater than in a tiny one. A hand corresponding in size with the rest of the body is much finer than the little fat, dimpled hands so many are proud of who possess, and others envy the possession.

It is equally nonsensical to squeeze the hands into gloves two sizes too small as to squeeze the feet into tight boots.

A very small nose is considered insignificant, while a large one is said to indicate nobility of character. Why not the same with hands or feet?

If with changes of time the idea should obtain that small noses only are fine, while large ones are something to hide, and of which to be ashamed, would not the vanity of humanity attempt to reduce the proportion of that member by lacing or inserting in a close not? It would be equally as sensible as stoping the circulation of the blood in other portions of the body.

A white, flexible hand is desired, but not at the sacrifice of duty.

Many a hard, rough hand has done enough good in the world to look beautiful in the eyes of the appreciative.—Girls who shirk all the housework, making drudges of their mother rather than soil their dainty white hands, need not expect to be loved by those who know it. The calous places and other signs of labor would be far more to their credit.

The best hand in the world is an honest hand, be it hard or soft, white or brown, smooth or rough, angular or shapely; an honest palm that takes the hand of a friend with a warm, hearty grasp, as if there was nothing in the heart to conceal, only warmth and kindness towards all. This is the best and most beautiful hand in the world.

THE SLOWEST RAILROAD EVER HEARD OF.

John writes to the New York Sun from Syracuse as follows:

A railroad runs from Oswego to Syracuse. It is thirty-six miles long. I rode on it, and those cars moved so slow that if you want the draft in your face you have to ride backward to get it. They never have hot journals on that road; the great danger is the stuffing and gravy around the axles will freeze. The screech of the locomotives is very faint, kind o' like the warble of a four-year-old boy blowing though a knot-hole in a board fence. It is capable of giving a grasshopper a thrill of alarm, but won't scare a crow worth a leather cuss. The conductor, engineer, and fireman, always walk ahead of the train to look for broken rails, and the cows always run on ahead of them to keep out of the dust. I tried an experiment. Two trains were passing, and I stuck a match out of the window and let the head of it rub against a passenger car. It went so slow I couldn't strike a light. If you ever take a trip from Oswego to Syracuse over that road, you want to take lots of clothes, a whole ham and a barrel of corned beef along with you.

THE surplus product of California will be even larger than was anticipated. Later accounts indicate that the wheat crop just harvested after supplying the home wants of the people, will yield a surplus of no less than 12,000,000 centals, or 600,000 tons, available for exportation. This is more than double the exports of the former prosperous year, when Oregon flour constituted no inconsiderable proportion of the exports of California. If we add the surplus products of the Oregon harvest, which has been exceptionally good this year, and the bulk of which usually seeks a market via San Francisco, it will be seen that the grain yield of the Pacific States is beyond all precedent, and of greater monetary value than the entire mining products of which the world has taken so much note. It is also to be remembered that this year's crops on the Pacific are unsurpassed both of quality and quantity, and in this respect differ from the crops in the Eastern States, which are generally poorer in quality than in quantity. This fact places California in the advantageous position of having a vast quantity of the kinds of grain that are most needed in the foreign markets.—*Cleveland Review.*

THE Hoosier editor of the Wabash "Plain Dealer" is the jubilant possessor, with his wife of a "joint stock concern" of which he sings as follows:

Only a baby!
Tuft short and thin;
Eyes like his mother;
"Paps" mouth and chin.

Only a baby!
Name he has none;
Barefoot and dimpled
And marked "No. 1."

Olive Logan thinks that with half the labor she has put into a book she could have secured a fortune in the millinery line.

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied; despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen. Grant's Presidency at the rate of one hundred millions of dollars a year; a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the nation kept in high respect throughout the world. This glorious record of the past is the party's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fitly demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of time or cause of such discharge.

9. The doctrine of Great Britain and other European powers, concerning allegiance, "once a subject, always a subject," having at last through the efforts of the Republican party, been abandoned, and the American idea of an individuals's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former governments, and we urge continual and careful encouragement and protection to voluntary immigration.

10. The franking privilege ought to be abolished and the way prepared for a speedy reduction in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of so shaping legislation as to secure full protection and the amplest field for capital, and for labor, the creator of capital, the largest opportunities, and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot-box, and therefore are entitled to the thanks of the nation.

13. We denounce the repudiation of the public debt, in any form or disguise, as a national crime, and we witness with pride the reduction of the principle of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction; and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustious services of Ulysses S. Grant have commended him to the hearts of the American people, and with him at our head we start to-day on a new march to victory.

VINEGAR BITTERS

R. H. McDONALD & Co., Druggists & Gen. Agents, San Francisco, Cal., and 34 Commerce street, N. Y.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER** and **A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Such a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of some of these living monsters of the human system. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no Vermifuge, no Anthelmintic will free the system from worms like these Bitters.

CHICAGO, December 6, 1871.

To the Officers of the Germania, Hanover, Niagara and Republic Fire Ins. Co's of New York:

GENTLEMEN—The course pursued by your Companies in the adjustment and payment of our own claims, and so far as we know, ALL claims for losses in the great fire in Chicago, has been so highly honorable, prompt and straightforward, and marked by such apparent desire to deal justly towards all parties, under all circumstances, that we cheerfully acknowledge it to the entire satisfaction of the insuring business public. We consider that nothing better could be made, both of the responsibility and of the integrity of an Insurance organization, than yours has passed through here successfully and creditably. With an unimpaired Capital and unimbittered responsibility, and a record for equitable settlements unsurpassed by none, we commend, certainly surpassed by some, we congratulate you on the career of future prosperity, to which your actions here have so justly entitled you, and remain,

HANDS.

Neatness is the first consideration which makes a hand attractive. No matter how long, bony, or large jointed or unshapely, if it is clean and the finger nails properly cared for, a hand can never look disgusting.

A soft, warm, pliable hand has great power in fascination. There is character in a large hand, many times far greater than in a tiny one. A hand corresponding in size with the rest of the body is much finer than the little fat, dimpled hands so many are proud of who possess, and others envy the possession.

It is equally nonsensical to squeeze the hands into gloves two sizes too small as to squeeze the feet into tight boots.

A very small nose is considered insignificant, while a large one is said to indicate nobility of character. Why not the same with hands or feet?

If with changes of time the idea should obtain that small noses only are fine, while large ones are something to hide, and of which to be ashamed, would not the vanity of humanity attempt to reduce the proportion of that member by lacing or inserting in a close not? It would be equally as sensible as stoping the circulation of the blood in other portions of the body.

A white, flexible hand is desired, but not at the sacrifice of duty.

Many a hard, rough hand has done enough good in the world to look beautiful in the eyes of the appreciative.—Girls who shirk all the housework, making drudges of their mother rather than soil their dainty white hands, need not expect to be loved by those who know it. The calous places and other signs of labor would be far more to their credit.

The best hand in the world is an honest hand, be it hard or soft, white or brown, smooth or rough, angular or shapely; an honest palm that takes the hand of a friend with a warm, hearty grasp, as if there was nothing in the heart to conceal, only warmth and kindness towards all. This is the best and most beautiful hand in the world.

THE SLOWEST RAILROAD EVER HEARD OF.

John writes to the New York Sun from Syracuse as follows:

A railroad runs from Oswego to Syracuse. It is thirty-six miles long. I rode on it, and those cars moved so slow that if you want the draft in your face you have to ride backward to get it. They never have hot journals on that road; the great danger is the stuffing and gravy around the axles will freeze. The screech of the locomotives is very faint, kind o' like the warble of a four-year-old boy blowing though a knot-hole in a board fence. It is capable of giving a grasshepper a thrill of alarm, but won't scare a crow worth a leather cuss. The conductor, engineer, and fireman, always walk ahead of the train to look for broken rails, and the cows always run on ahead of them to keep out of the dust. I tried an experiment. Two trains were passing, and I stuck a match out of the window and let the head of it rub against a passenger car. It went so slow I couldn't strike a light. If you ever take a trip from Oswego to Syracuse over that road, you want to take lots of clothes, a whole ham and a barrel of corned beef along with you.

THE surplus product of California will be even larger than was anticipated. Later accounts indicate that the wheat crop just harvested after supplying the home wants of the people, will yield a surplus of no less than 12,000,000 centals, or 600,000 tons, available for exportation. This is more than double the exports of the former prosperous year, when Oregon flour constituted no inconsiderable proportion of the exports of California. If we add the surplus products of the Oregon harvest, which has been exceptionally good this year, and the bulk of which usually seeks a market via San Francisco, it will be seen that the grain yield of the Pacific States is beyond all precedent, and of greater monetary value than the entire mining products of which the world has taken so much note. It is also to be remembered that this year's crops on the Pacific are unsurpassed both of quality and quantity, and in this respect differ from the crops in the Eastern States, which are generally poorer in quality than in quantity. This fact places California in the advantageous position of having a vast quantity of the kinds of grain that are most needed in the foreign markets.—*Cleveland Review.*

THE Hoosier editor of the Wabash "Plain Dealer" is the jubilant possessor, with his wife of a "joint stock concern" of which he sings as follows:

Only a baby!
Talk short and thin;
Eyes like his brother;
"Papa" mouth and chin.

Only a baby!
Name he has none;
Barrelled and dimpled
And marked "No. 1."

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied; despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen. Grant's Presidency at the rate of one hundred millions of dollars a year; a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the nation kept in high respect throughout the world. This glorious record of the past is the party's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fully demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of time or cause of such discharge.

9. The doctrine of Great Britain and other European powers, concerning allegiance, "once a subject, always a subject," having at last through the efforts of the Republican party, been abandoned, and the American idea of an individual's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former governments, and we urge continual and careful encouragement and protection to voluntary immigration.

10. The franking privilege ought to be abolished and the way prepared for a speedy reduction in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of so shaping legislation as to secure full protection and the amplest field for capital, and for labor, the creator of capital, the largest opportunities, and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot-box, and therefore are entitled to the thanks of the nation.

13. We denounce the repudiation of the public debt, in any form or disguise, as a national crime, and we witness with pride the reduction of the principle of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction; and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustrious services of Ulysses S. Grant have commended him to the hearts of the American people, and with him at our head we start to-day on a new march to victory.

VINEGAR BITTERS

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **Free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER, And A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, curing off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the Regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Such a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no Vermifuge, no anthelmintic will free the system from worms like these Bitters.

THE CAMPAIGN FOR THE UNION

Republican meetings will be held at the times and places specified below. All who are in favor of perpetuating the Union of these States, and preserving the peace, dignity, honor and prosperity of the same, all who are opposed to the man who, in 1860, said: "If the Southern States desire to withdraw from this Union," etc., he would be willing to the same; and again, on the 19th of September, 1872, said at Pittsburg, that if the Southern people prove that they want disunion, he would consent to it, and all who are in favor of the Patriot, Soldier, and Statesman, who so nobly defended his country in its terrible baptism of blood, are not only earnestly invited, but everybody is requested to be present.

THURSDAY, OCT. 31st

Forsyth—H Crea and W G Johns.
Harristown—C C McComas and L F Muzzy.

FRIDAY, NOV. 1

Lake Fork School House, Austin—C C McComas and D L Bunn.
Wheatland—W C Johns and H P Parmelee.

SATURDAY, NOV 2d.

Blue Mound—H Crea.
Long Creek, Bob d' Arc School House—C C McComas and Jno Hall.

MONDAY, NOV. 4th

Decatur—Gov. Oglesby and George A. Sanders.

A CAREFUL canvass of the vote of New York by the Republicans gives the State to Grant by about 18,000 majority. Many Greeley clubs through out the State have disbanded, and the Liberal cause is declining so rapidly that leading Republicans are confident of more than 25,000 majority.

THE Cuban insurgents are again on the war-path. A few days ago they burned fifty houses in the town of Guisa. During the attack a number of both of the revolutionists and Spaniard were killed and wounded. It is time that this miserable rebellion that has raged so long with such indecisive results should receive official notice from other governments.

A MINISTER once told Wendell Phillips that if his business or life was to serve the negroes he ought to go South where they were and do it. "That is worth thinking of," replied Phillips; "and what is your business in life?" "To save men from hell," replied the minister. "Then go there and attend to your business," replied Mr. Phillips.

CUMULATIVE VOTING.

At the general election next Tuesday the system of cumulative voting will be tried for the first time in this State. This system applies only to the election of representatives to the general assembly, three of which are to be chosen in each district. The invention of the law is to provide for the representation of minorities—that is, that the party in the ascendancy in any given district cannot elect all three of the representatives, provided the minority party will avail itself of the provisions of the law. To secure this object the voter is at liberty to cast his three votes for a single candidate, or he may divide them between two candidates, giving each one and a half votes, or he may cast two votes for one candidate and one for another. This is what is meant by the term "cumulative voting."

The law provides that the number of votes which the voter desires to cast for each candidate must be expressed on the face of his ballot in words or figures. For example: if three names are printed on the ticket, and the ballot cast in that way, it is held to mean one vote for each candidate named, but if the voter desires to divide his three votes between two candidates, or give them all to one, his intention must be so expressed in words or figures on the ballot. In this district, the Republicans can only secure the representation to which they are entitled by casting their ballots in the following form:

William T. Moffett, 1½ votes.
Job A. Race, 1½ votes.

The Republican majority in the district is sufficiently large to secure the election of both our candidates, if the entire vote of the party be cast in the form indicated above. But if the Republicans, in any considerable numbers, should cast three votes for one of our candidates, and the opposition divide their's evenly between Lane and Frick, the minority party would elect two representatives and the majority party only one. In this way the Republicans would fritter away their strength and the object of the law be defeated.

We trust that the above explanation will serve to put Republicans on their guard, and show them that we are liable to be *mis*-represented unless we vote one and a half votes each for Moffett and Race.

THE population of the United States is put at 40,500,000, a handsome increase since the census 1870 was taken. If we are not a great people, we are a very numerous people, and by 1880 we shall be ahead of every Christian nation Russia alone excepted.

A REPRESENTATIVE of the New York *Herald* has made a thorough canvass of the Empire State, visiting every section, his object being to entertain the political prospects. He reports that there are no straight-outs in the rural districts, of any account, and only a very few democrats who will vote for Grant. The danger to Greeley is from the stay-at-homes. The party has no heart in the campaign, and thousands upon thousands will seize upon some pretext for keeping away from the polls. Every stay-at-home virtually counts one for the republican ticket. Upon what is pronounced a low estimate the democratic defection in that one State will not fall much, if any, short of fifty thousand. The odds are now very decidedly in President Grant's favor, with each day adding to the Republican strength.

THE New York *Tribune*, referring to the "over confidence" of the Republican party, says:

"The sensible Grant people made the same discovery some time ago. They are perfectly aware that the Southern vote, New York, New Jersey, Connecticut, and Indiana solid for Mr. Greeley mean a prospect far fairer than anything they can find on the Two-Term side."

Mr Greeley will not get "the Southern vote"—nor the half of it; he will get Georgia, Kentucky, Tennessee, and Delaware, and perhaps Virginia, and that's all. He will not get New York; he will not get Connecticut, and he is more likely to get the whooping-cough than to get Indiana. As for New Jersey, he is welcome to it, if he wants it.

A Complete Failure.—One of the Liberal orators of this city has been extensively advertised during the past week to speak at Macon last evening. The people had been talked to, bills posted, and a grand time expected. The orator stepped off the platform at the beautiful little city of Macon last evening, but that coach and six that he had expected to meet him, was not there. The citizens had not "enthused;" the hall had not been opened, and the meeting was a complete failure. A kindly disposed Republican took the speaker home with him where he remained until the 9 o'clock, p. m. train, when he returned to his home a wiser and, we hope, a better man.

WE are informed that Senator Trumbull's son was at Clinton yesterday, his errand being to "set things up" for his illustrious father. It is also currently reported that his efforts were directed towards the colored voters, and that he attempted to buy their votes by offers of money. For the honor of American politics we trust that this report is false, but it would just be in keeping with the present "Reform" movement.

THE New York *Tribune* spoils a long article on reform by starting out with the sentence, "If Mr. Greely becomes President, his administration will at once begin a series of reforms which are sorely needed." But since it is a settled fact that Mr. Greeley will not become President, what's the use of saying what he would do if he were President?

LYMAN TRUMBULL began his career of office-hunter as a lobbyist in favor of repudiation of the public debt of Illinois. It is appropriate that the office-holding career of so arrant a demagogue should end in the repudiation of himself by the Illinois public.

IN his speech at Parmely's Hall, Peoria, Gov. Hendricks, of Indiana, gave his hearers a touch of his biblical lore. He said when Christ was baptised a voice above cried, "Peace on earth and good will towards men," and that President Grant plagiarized this cry when he said, "let us have peace." The *Transcript* says: "We think Hendricks would do well to revise his biblical knowledge, for although his Democratic hearers might not be aware of his blunder, republicans present at once detected it. It would puzzle the Indiana gentleman greatly to find any such occurrence at the baptism of the Savior.

I AM free to say to you that Mr. Greeley was not my choice; I had hoped that the Cincinnati convention would select some western man. I had rather expected Judge Davis, of Illinois, to be nominated, but, in the providence of God, as I said, it is now either Grant or Greeley.—*Hendricks' Chicago Speech.*

A MINNESOTA correspondent of the Chicago *Times* predicts that the Republicans will carry that State by from ten to fifteen thousand majority, and elect the three Congressmen.

THE New York *Tribune* advises its readers to "vote for no man who is particularly anxious to be elected." This is a deadly stab at Mr. Greeley.

CHESTER, Vt., October 29.—Hon Nathaniel Fullerton, President of the Bellows Falls National Bank, died at his residence in this town, in his ninety-eighth year, this morning. He was the oldest bank president and the oldest Mason in the United States. He was formerly President of the Rutland and Burlington railroad. His death leaves a void that cannot be easily filled.

THE HORSE DISEASE.

NEW YORK, Oct. 29.—The epidemic may now be said to be at its height here, but, notwithstanding the widespread suffering and numerous fatal cases yesterday, the disease is thought by many experienced horsemen to be on the decline. To-day is cool and pleasant, and hundreds of partially affected horses will be used in consequence. The number of dead horses reported yesterday is very large, reaching probably over 250. Intelligence of more is hourly coming in. Several of the leading physicians on the Board of Health say that the disease will probably soon attack man. A few men in Brooklyn, who have worked about sick horses, are said to have the malady. There is a strong public feeling against the continuous working of sick horses by many roads. Nothing, however, has been done to prevent this inhumanity, but arrests are being made of betty carmen, and yesterday Philozooist Bergh had a poor man consigned to the Tombs for using his animal. Two instances occurred yesterday of horses falling dead in harness on the street railroads, from overwork. The carrying trade continues to suffer, and along the docks piles of freight remain unmoved. Some branches of business are at a stand-still. Merchants who are under contract to ship flour and other articles find that they have to pay enormous prices for cartage. Broadway is thoroughly packed with pedestrians throughout the day. Some of the railroad lines will be compelled to stop to-day. Others will continue to reduce the number of their trips. Large dealers are announcing their inability to deliver articles at the homes of purchasers. The ferries are missing their usual receipts from vehicles, and many of the principal marts of trade have a gloomy appearance. The streets present a spectacle of wretched-looking, tottering horses, dragging terribly over-laden cars and vehicles.

An Oswego dispatch says: "Many horses in the surrounding country have been attacked, will great depression exists among forwarders and shippers. Canal freights to New York and tide water have risen to 12 cents a mile and are still advancing."

The distemper is becoming general in the northern part of the State.

The disease is still on the increase at Albany.

ELMIRA, N. Y. Oct. 29.—The horse disease has rapidly increased here within the past two or three days, and nearly one hundred horses are now suffering; but with proper care most of them will recover. Nearly all those belonging to the street railway company are unfit for use.

SPRINGFIELD, Mass., Oct. 29.—The horse disease is now at its height. In fourteen stables 300 horses out of 350 are sick. One horse valued at $300, has died. The horse cars have stopped, and business is interrupted. Holyoke, Westfield, Palmer and other towns are afflicted.

HALIFAX, N. S., Oct. 29.—The horse disease has appeared here. Owners are taking every precaution against it.

BOSTON, Oct. 29.—The horse disease has evidently taken a more favorable turn. A marked improvement is reported in nearly all the cases under treatment. Some days must, however, elapse before their recovery. Few street cars continue to run, and there is a small increase in express and job wagons.

OSWEGO, N. Y. Oct. 29.—Over two-thirds of the canal horses are affected. Two tug boats were sent out yesterday to pick up tow-boats in the canal. Weather cool.

BUFFALO, October 27.—Cattle—receipts for to-day 170 head, making the total supply for the week thus far 731 head. Market not fairly opened; all stock trains behind time. Sheep and lambs—receipts for to-day 2,200. Market not opened yet. Hogs—receipts for to-day 7,100 head. Market without any apparent life; the crowded state of the Eastern markets and the large supply already in pens caused buyers to stand off and wait more favorable advices from New York.

ANDREW JOHNSON'S chances for congressman at-large from Tennessee are said to be very good. He is making a large diversion from Cheatham, the regular Liberal-Democratic candidate.

FROM WASHINGTON.

WASHINGTON, Oct. 29.—The forthcoming report of the Postmaster General will show that the expenses of the department were increased during the past year, as compared with the preceding year, by about two and a quarter million dollars, merely for increase of transportation of postal facilities, foreign and domestic, and that the increased receipts have nearly kept pace with the expenses, the increase being a little over two millions.

Minister Washburne dined with President Grant and family this evening. Secretary and Mrs. Fish, and Sec. Belknap were among the guests. Washburne left to-night for Illinois.

All the Secretaries except Fish and Belknap are away.

In a statement sent to the Philadelphia Press, to-day, by the Republican Congressional Committee, the following States and majorities are claimed for Grant and Wilson:

Maine, 25,000; Massachusetts, 75,000; Vermont, 30,000; New Hampshire, 3000; Connecticut, 3000; Rhode Island, 4,000; New York, (lowest) 25,000; New Jersey, 10,000; Pennsylvania, 50,000; Ohio, 30,000; Indiana, 10,000; Illinois, 35,000; Michigan, 35,000; Wisconsin, 25,000; Minnesota, 10,000; Iowa, 60,000; Nebraska, 7000; Kansas, 20,000; Missouri, (lowest), 15,000; California, 6,000; Oregon 1000; Nevada, 1000; North Carolina, 1000; South Carolina, 45,000; Florida, 1000; Alabama, 10,000; Mississippi, 10,000; Louisiana, 10,000; Arkansas, (probably), 3000—making a total popular majority of 585,000. It is believed that the total vote will go considerably over 6,000,000. Delaware is regarded as probably for Grant. The majorities are all given at the lowest dates.

WASHINGTON, October 29.—In New England and Atlantic States generally clear and warmer weather, with northeasterly and easterly winds. In the Gulf States southeast winds and cloudy weather. The barometer will fall on the lakes, with threatening weather, rains and brisk easterly to southeasterly winds. In the Northwest brisk southeasterly winds, veering to northerly and westerly, with threatening weather and rain. Warning signals continue at Duluth, Milwaukee, Chicago, Grand Haven, Detroit and Toledo.

FROM NEW YORK.

NEW YORK, October 29.—A meeting of united nationalities was held at the Cooper Institute, this evening, when a most curious assemblage was seen.—The audience was composed of Germans, Italians, Spanish, French, Irish, and even Chinese, desirous of aiding in the election of Grant for President of the United States. The hall was beautifully decorated with flags of all nations, and a fine portrait of Grant adorned the platform.

It is generally conceded here that Mayor Hall will be acquitted of the charges against him. He knew what he was doing when he signed the warrants for enormous sums for plastering and plumbing, but the law cannot get at him.

—TO—

Messrs. HALLET, DAVIS & Co.

Gentlemen.—Having had the opportunity to listen to your Pianos, under the playing of Herr Franz Bendel and Madame Arabella Goddard, at the World's Peace Jubilee, and also used them as accompaniment to my voice in a room of less size, it gives me pleasure to add my testimony to their superiority over any other Pianos I have heard or used.

MESSRS. HALLET, DAVIS & CO:
Gentlemen.—It gives me extreme pleasure that I am able to compliment you with manufacturing the best Pianos I ever saw in my life.
Regarding technique and tone, I believe your Instruments will always far excel all other manufactures of the kind.

FRANZ ABT

AND THE

Hallet, Davis & Co. Pianos.

This eminent German song-writer, author of "When the Swallows Homeward Fly," &c., says:
"One of the most pleasant surprises that have been afforded me in America has been in the listening to the magnificent Pianos manufactured in this country. Their reputation in Europe has always been of the first order, but it was not until my arrival here that I was given an opportunity to hear and carefully judge of all their merits.
"In the superb Instruments manufactured by Hallet, Davis & Co., and used at all the concerts of the Great Boston Jubilee, there was combined a strength and purity of tone, elegance of finish, and those peculiar lasting qualities of rich sound and elaborate general workmanship—without which no Piano can be considered thoroughly good—such as I have never known to be surpassed. I believe their Pianos to be as near absolute perfection as it is possible for the instrument to be brought."

AND THE

Hallet, Davis & Co. Pianos.

During my sojourn at Boston, at the time of the World's Peace Jubilee, it was of the greatest interest to me to become acquainted with and play the Grand Pianos of Messrs. Hallet, Davis & Co. I was filled with astonishment that these Grand Pianos were *so grand* in their power of tone that they filled the vast space of the Coliseum—the largest concert hall in the world—and had the perfect, satisfactory command under guiding touch, delicacy of expression, and power of tone.
I coincide with the opinion of Dr. Franz Liszt and other celebrated Pianists, who, in their judgment, have placed these instruments among the first and most excellent manufactured in America.
(Signed) FRANZ BENDEL.

THE CAMPAIGN FOR THE UNION

Republican meetings will be held at the times and places specified below. All who are in favor of perpetuating the Union of these States, and preserving the peace, dignity, honor and prosperity of the same, all who are opposed to the man who, in 1860, said: "If the Southern States desire to withdraw from this Union," etc., he would be willing to the same; and again, on the 19th of September, 1872, said at Pittsburg, that if the Southern people prove that they want disunion, he would consent to it, and all who are in favor of the Patriot, Soldier, and Statesman, who so nobly defended his country in its terrible baptism of blood, are not only earnestly invited, but everybody is requested to be present.

A CAREFUL canvass of the vote of New York by the Republicans gives the State to Grant by about 18,000 majority. Many Greeley clubs through out the State have disbanded, and the Liberal cause is declining so rapidly that leading Republicans are confident of more than 25,000 majority.

THE Cuban insurgents are again on the war-path. A few days ago they burned fifty houses in the town of Guisa. During the attack a number of both of the revolutionists and Spaniard were killed and wounded. It is time that this miserable rebellion that has raged so long with such undecisive results should receive official notice from other governments.

A MINISTER once told Wendell Phillips that if he his success in life was to serve the negroes he ought to go South where they were and do it. "That is worth thinking of, eight Phillips," and what is your business in life?" "To save men from hell," replied the minister. "Then go there and attend to your business," replied Mr. Phillips.

CUMULATIVE VOTING.

At the general election next Tuesday the system of cumulative voting will be tried for the first time in this State. This system applies only to the election of representatives to the general assembly, three of which are to be chosen in each district. The invention of the law is to provide for the representation of minorities—that is, that the party in the ascendancy in any given district cannot elect all three of the representatives, provided the minority party will avail itself of the provisions of the law. To secure this object the voter is at liberty to cast his three votes for a single candidate, or he may divide them between two candidates, giving each one and a half votes, or he may cast two votes for one candidate and one for another. This is what is meant by the term "cumulative voting."

The law provides that the number of votes which the voter desires to cast for each candidate must be expressed on the face of his ballot in words or figures. For example: if three names are printed on the ticket, and the ballot cast in that way, it is held to mean one vote for each candidate named, but if the voter desires to divide his three votes between two candidates, or give them all to one, his intention must be so expressed in words or figures on the ballot. In this district, the Republicans can only secure the representation to which they are entitled by casting their ballots in the following form:

William T. Moffett, 1½ votes.
Job A. Race, 1½ votes.

The Republican majority in the district is sufficiently large to secure the election of both our candidates, if the entire vote of the party be cast in the form indicated above. But if the Republicans, in any considerable numbers, should cast three votes for one of our candidates, and the opposition divide their's evenly between Lane and Frick, the minority party would elect two representatives and the majority party only one. In this way the Republicans would fritter away their strength and the object of the law be defeated.

We trust that the above explanation will serve to put Republicans on their guard, and show them that we are liable to be *mis*-represented unless we vote one and a half votes each for Moffett and Race.

THE population of the United States is put at 40,500,000, a handsome increase since the census 1870 was taken. If we are not a great people, we are a very numerous people, and by 1880 we shall be ahead of every Christian nation Russia alone excepted.

A REPRESENTATIVE of the New York *Herald* has made a thorough canvass of the Empire State, visiting every section, his object being to entertain the political prospects. He reports that there are no straight-outs in the rural districts, of any account, and only a very few democrats who will vote for Grant. The danger to Greeley is from the stay-at-homes. The party has no heart in the campaign, and thousands upon thousands will seize upon some pretext for keeping away from the polls. Every stay-at-home virtually counts one for the republican ticket. Upon what is pronounced a low estimate the democratic defection in that one State will not fall much, if any, short of fifty thousand. The odds are now very decidedly in President Grant's favor, with each day adding to the Republican strength.

THE New York *Tribune*, referring to the "over confidence" of the Republican party, says:

"The sensible Grant people made the same discovery some time ago. They are perfectly aware that the Southern vote, New York, New Jersey, Connecticut, and Indiana solid for Mr. Greeley mean a prospect far fairer than anything they can find on the Two-Term side."

Mr Greeley will not get "the Southern vote"—nor the half of it; he will get Georgia, Kentucky, Tennessee, and Delaware, and perhaps Virginia, and that's all. He will not get New York; he will not get Connecticut, and he is more likely to get the whooping-cough than to get Indiana. As for New Jersey, he is welcome to it, if he wants it.

A Complete Failure.—One of the Liberal orators of this city has been extensively advertised during the past week to speak at Macon last evening. The people had been talked to, bills posted, and a grand time expected. The orator stepped off the platform at the beautiful little city of Macon last evening, but that coach and six that he had expected to meet him, was not there. The citizens had not "cutlass ed;" the hall had not been opened, and the meeting was a complete failure. A kindly disposed Republican took the speaker home with him where he remained until the 9 o'clock, p. m. train, when he returned to his home a wiser and, we hope, a better man.

WE are informed that Senator Trumbull's son was at Clinton yesterday, his errand being to "set things up" for his illustrious father. It is also currently reported that his efforts were directed towards the colored voters, and that he attempted to buy their votes by offers of money. For the honor of American politics we trust that this report is false, but it would just be in keeping with the present "Reform" movement.

THE New York *Tribune* spoils a long article on reform by starting out with the sentence, "If Mr. Greely becomes President, his administration will at once begin a series of reforms which are sorely needed." But since it is a settled fact that Mr. Greeley will not become President, what's the use of saying what he would do if he were President?

LYMAN TRUMBULL began his career of office-hunter as a lobbyist in favor of repudiation of the public debt of Illinois. It is appropriate that the office-holding career of so arrant a demagogue should end in the repudiation of himself by the Illinois public.

IN his speech at Parmely's Hall, Peoria, Gov. Hendricks, of Indiana, gave his hearers a touch of his biblical lore. He said when Christ was baptised a voice above cried, "Peace on earth and good will towards men," and that President Grant plagiarized this cry when he said, "let us have peace." The *Transcript* says: "We think Hendricks would do well to revise his biblical knowledge, for although his Democratic hearers might not be aware of his blunder, republicans present at once detected it. It would puzzle the Indiana gentleman greatly to find any such occurrence at the baptism of the Savior.

I AM free to say to you that Mr. Greeley was not my choice; I had hoped that the Cincinnati convention would select some western man. I had rather expected Judge Davis, of Illinois, to be nominated, but, in the providence of God, as I said, it is now either Grant or Greeley.—*Hendricks' Chicago Speech.*

A MINNESOTA correspondent of the Chicago *Times* predicts that the Republicans will carry that State by from ten to fifteen thousand majority, and elect the three Congressmen.

THE New York *Tribune* advises its readers to "vote for no man who is particularly anxious to be elected." This is a deadly stab at Mr. Greeley.

CHESTER, Vt., October 29.—Hon Nathaniel Fullerton, President of the Bellows Falls National Bank, died at his residence in this town, in his ninety-eighth year, this morning. He was the oldest bank president and the oldest Mason in the United States. He was formerly President of the Rutland and Burlington railroad. His death leaves a void that cannot be easily filled.

THE HORSE DISEASE.

NEW YORK, Oct. 29.—The epidemic may now be said to be at its height here, but, notwithstanding the widespread suffering and numerous fatal cases yesterday, the disease is thought by many experienced horsemen to be on the decline. To-day is cool and pleasant, and hundreds of partially affected horses will be used in consequence. The number of dead horses reported yesterday is very large, reaching probably over 250. Intelligence of more is hourly coming in. Several of the leading physicians on the Board of Health say that the disease will probably soon attack man. A few men in Brooklyn, who have worked about sick horses, are said to have the malady. There is a strong public feeling against the continuous working of sick horses by many roads. Nothing, however, has been done to prevent this inhumanity, but arrests are being made of betty carmen, and yesterday Philozooist Bergh had a poor man consigned to the Tombs for using his animal. Two instances occurred yesterday of horses falling dead in harness on the street railroads, from overwork. The carrying trade continues to suffer, and along the docks piles of freight remain unmoved. Some branches of business are at a stand-still. Merchants who are under contract to ship flour and other articles find that they have to pay enormous prices for cartage. Broadway is thoroughly packed with pedestrians throughout the day. Some of the railroad lines will be compelled to stop to-day. Others will continue to reduce the number of their trips. Large dealers are announcing their inability to deliver articles at the homes of purchasers. The ferries are missing their usual receipts from vehicles, and many of the principal marts of trade have a gloomy appearance. The streets present a spectacle of wretched-looking, tottering horses, dragging terribly over-laden cars and vehicles.

An Oswego dispatch says: "Many horses in the surrounding country have been attacked, will great depression exists among forwarders and shippers. Canal freights to New York and tide water have risen to 12 cents a mile and are still advancing."

The distemper is becoming general in the northern part of the State.

The disease is still on the increase at Albany.

ELMIRA, N. Y. Oct. 29.—The horse disease has rapidly increased here within the past two or three days, and nearly one hundred horses are now suffering; but with proper care most of them will recover. Nearly all those belonging to the street railway company are unfit for use.

SPRINGFIELD, Mass., Oct. 29.—The horse disease is now at its height. In fourteen stables 300 horses out of 350 are sick. One horse valued at $300, has died. The horse cars have stopped, and business is interrupted. Holyoke, Westfield, Palmer and other towns are afflicted.

HALIFAX, N. S., Oct. 29.—The horse disease has appeared here. Owners are taking every precaution against it.

BOSTON, Oct. 29.—The horse disease has evidently taken a more favorable turn. A marked improvement is reported in nearly all the cases under treatment. Some days must, however, elapse before their recovery. Few street cars continue to run, and there is a small increase in express and job wagons.

OSWEGO, N. Y. Oct. 29.—Over two-thirds of the canal horses are affected. Two tug boats were sent out yesterday to pick up tow-boats in the canal. Weather cool.

BUFFALO, October 27.—Cattle—receipts for to-day 170 head, making the total supply for the week thus far 731 head. Market not fairly opened; all stock trains behind time. Sheep and lambs—receipts for to-day 2,200. Market not opened yet. Hogs—receipts for to-day 7,100 head. Market without any apparent life; the crowded state of the Eastern markets and the large supply already in pens caused buyers to stand off and wait more favorable advices from New York.

ANDREW JOHNSON'S chances for congressman-at-large from Tennessee are said to be very good. He is making a large diversion from Cheatham, the regular Liberal-Democratic candidate.

FROM WASHINGTON.

WASHINGTON, Oct. 29.—The forthcoming report of the Postmaster General will show that the expenses of the department were increased during the past year, as compared with the preceding year, by about two and a quarter million dollars, merely for increase of transportation of postal facilities, foreign and domestic, and that the increased receipts have nearly kept pace with the expenses, the increase being a little over two millions.

Minister Washburne dined with President Grant and family this evening. Secretary and Mrs. Fish, and Sec. Belknap were among the guests. Washburne left to-night for Illinois.

All the Secretaries except Fish and Belknap are away.

In a statement sent to the Philadelphia Press, to-day, by the Republican Congressional Committee, the following States and majorities are claimed for Grant and Wilson:

Maine, 25,000; Massachusetts, 75,000; Vermont, 30,000; New Hampshire, 3000; Connecticut, 3000; Rhode Island, 4,000; New York, (lowest) 25,000; New Jersey, 10,000; Pennsylvania, 50,000; Ohio, 30,000; Indiana, 10,000; Illinois, 35,000; Michigan, 35,000; Wisconsin, 25,000; Minnesota, 10,000; Iowa, 60,000; Nebraska, 7000; Kansas, 20,000; Missouri, (lowest), 15,000; California, 6,000; Oregon 1000; Nevada, 1000; North Carolina, 1000; South Carolina, 45,000; Florida, 1000; Alabama, 10,000; Mississippi, 10,000; Louisiana, 10,000; Arkansas, (probably), 3000—making a total popular majority of 585,000. It is believed that the total vote will go considerably over 6,000,000. Delaware is regarded as probably for Grant. The majorities are all given at the lowest dates.

WASHINGTON, October 29.—In New England and Atlantic States generally clear and warmer weather, with northeasterly and easterly winds. In the Gulf States southeast winds and cloudy weather. The barometer will fall on the lakes, with threatening weather, rains and brisk easterly to southeasterly winds. In the Northwest brisk southeasterly winds, veering to northerly and westerly, with threatening weather and rain. Warning signals continue at Duluth, Milwaukee, Chicago, Grand Haven, Detroit and Toledo.

FROM NEW YORK.

NEW YORK, October 29.—A meeting of united nationalities was held at the Cooper Institute, this evening, when a most curious assemblage was seen.—The audience was composed of Germans, Italians, Spanish, French, Irish, and even Chinese, desirous of aiding in the election of Grant for President of the United States. The hall was beautifully decorated with flags of all nations, and a fine portrait of Grant adorned the platform.

It is generally conceded here that Mayor Hall will be acquitted of the charges against him. He knew what he was doing when he signed the warrants for enormous sums for plastering and plumbing, but the law cannot get at him.

Mme. Peschka Leutner
—TO—
Messrs. HALLET, DAVIS & Co.

Gentlemen.—Having had the opportunity to listen to your Pianos, under the playing of Herr Franz Bendel and Madame Arabella Goddard, at the World's Peace Jubilee, and also used them as accompaniment to my voice in a room of less size, it gives me pleasure to add my testimony to their superiority over all other Pianos I have heard or used.

Hallet, Davis & Co. Pianos.

MESSRS. HALLET, DAVIS & CO:
Gentlemen.—It gives me extreme pleasure that I am able to compliment you with making the finest Pianos I ever saw in my life.
Regarding technique and tone, I believe your Instruments will always far excel all other manufactures of the kind.
(Signed) H. SARO,
Royal Prussian Musical Director.

FRANZ ABT
AND THE
Hallet, Davis & Co. Pianos.

This eminent German song-writer, author of "When the Swallows Homeward Fly," &c., says:
"One of the most pleasant surprises that have been afforded me in America has been in the listening to the magnificent Pianos manufactured in this country. Their reputation in Europe has always been of the first order, but it was not until my arrival here that I was given an opportunity to hear and carefully judge of all their merits.
"In the superb Instruments manufactured by Hallet, Davis & Co., and used at all the concerts of the Great Boston Jubilee, there was combined a strength and purity of tone, elegance of finish, and those peculiar lasting qualities of rich sound and elaborate general workmanship—without which no Piano can be considered thoroughly good—such as I have never known to be surpassed. I believe their Pianos to be as near absolute perfection as it is possible for the instrument to be brought."
(Signed) FRANZ ABT.
Boston, June 22, 1872.

Franz Bendel
AND THE
Hallet, Davis & Co. Pianos.

During my sojourn at Boston, at the time of the World's Peace Jubilee, it was of the greatest interest to me to become acquainted with and play the Grand Pianos of Messrs. Hallet, Davis & Co. I was filled with astonishment that these Grand Pianos were so grand in their power of tone that they filled the vast space of the Coliseum—the largest concert hall in the world—and that they so perfectly satisfy every demand under the most trying delicacy of expression, and power of tone.
I coincide with the opinion of Dr. Franz Liszt and other celebrated Pianists, who, in their judgment, have placed these Instruments among the first and most excellent manufactured in America.
(Signed) FRANZ BENDEL.

Sinful Siftings.—Thomas Lewis in one of his lofty flights of thought conceived the idea of making a perpetual motion of himself. He procured a canteen of "forty rod" and gladly sped on his way. The contents of the canteen got the best of him before he had gone far, and to his entire disgust he was requested to take up quarters in the calaboose. Of course he did as requested, and to make the matter worse he was fined $8 and costs by Justice Baker.

Mrs. Catheren is a reformer. All reformers have met with opposition at their own homes; this world is slow to change long established usages. Mrs. Catheren is a women's reformer. She doesn't believe in the men disturbing the peace unless the women have the same privilege. Justice Albert thought that about $8 and costs was enough to pay for the injured dignity of the city.

Michael Jones and Jerry Lane were companions—they had lived, worked and fought together. Many times when the air was thick with brickbats and the "perlice" were rushing frantically to the arrest—of some man that was too drunk to get away or resist, Michael's hand had warded off the descending club and he not unfrequently had risked his life in defense of his most intimate friend. But the best of friends will fall out—the delicate cords that bind one noble soul to another are often severed in twain by this rude world; and frequently do those same hands that have ministered to the wants and wishes of a companion become the means of the destruction of intellectual heads, auburn locks and Roman noses. To make a long story short, Michael Jones and Jerry Lane had a fight; both of them received some very severe blows. Michael was fined $5 and costs, and Jerry $6 and costs, by Justice Albert.

Personal.—Paul Vandervoot, Esq., of Bloomington, called on us yesterday. He had spoken at Taylorville, Monday night, to a large audience. Mr. Vandervoot is a fine speaker, and has done good work this campaign, having made speeches throughout the State, from Chicago to Cairo. He is a whole soul, good-hearted fellow.

Helped to Swell the Crowd.—In going our usual round of the streets this morning we met Capt. Joab Wilkinson, who was inquiring the whereabouts of Harl Christie. We asked him what he wanted with Harl, to which he replied: "I desire to make this Democratic funeral respectable, and I feel somewhat like old Dixon felt when Jones' wife died. Old Dixon had harnessed his horses to go to town, and as he passed by the house where the funeral was to take place he noticed that nobody was there, and said to his wife, "Let us stop and attend the funeral instead of going to town, as they need somebody to make the procession look respectable." We left the King of Niantic hunting for Harl, and vowing that he would march in the procession to lend respectability to the crowd. To-morrow's report will show that the Democratic funeral had a considerable degree of respectability added to it, both numerically and otherwise, by the thoughtful consideration of Uncle Joab.

Oakley School House resounded with cheers for Grant, Wilson and Oglesby last night. The people of that part of the county came out in full force, and were addressed by C. C. McComas and Jonathan Hall. The speeches were earnest and to the point, the people were enthusiastic and everything passed off pleasantly.

Joab Wilkinson and Jesse Lockhart held a joint discussion at Long Creek school house last night. Those present were pleased. They seemed to think the political questions of the day were about as ably discussed by these gentlemen as they have been by some of the big guns of the campaign. Good for Joab and Jesse.

Newspapers.—Nothing adds to the character of a city more than the Local newspaper. A starved paper is a stigma upon the community it represents and is detrimental to the prosperity of the business community. All should help sustain an interest which is so important. A few dollars spent in advertising will be a good investment. It is unfortunate, if any individual does not know the value of printer's ink, for he must sooner or later learn the necessity of a judicious expenditure in this channel. Every business house should be represented in one or more of the daily papers.

We do not say this from a selfish motive, but we desire to see prosperity and advancement in every branch of trade. No convincing argument can be brought against advertising; we think there is not a man or woman doing business in this city who will dispute the fact that advertising is a good thing. Some will argue that they have tried advertising, but could not realize any advantage. Now this is inconsistent with the history of advertising. Take the business career of some, in fact most of the successful merchants here and elsewhere, and the facts will show that the investment has been profitable. Let any candid man consider in the light of common sense, of the virtue and advantage of advertising, and he can but come to a favorable conclusion.—*Bloomington Leader.*
